te														

아래의 포함관계를 고려하지 않았을 때, direction이 없는 graph로 나타냈다.

29.

포함관계를 나타내는 graph이다.

a. T

b. T

C. F

d. F

e. T

f. F

31.

Is an example of

Exercise2.

```
template < class VertexType>
[void GraphType<VertexType>::DeleteEdge(VertexType fromVertex, VertexType toVertex)
{
    int row = IndexIs(vertices, fromVertex);
    int col = IndexIs(vertices, toVertex);
    edges[row][col] = 0;
}
```

Exercise3
